4. Data Sources & Methodology

1. Executive Summary

This report presents a comprehensive SEO audit of **penelopesocial.com** for a **Local brick-and-mortar restaurant (Italian-leaning cafe & bar, Woodbridge/Vaughan ON) with sister bakery on a separate domain** site, generated on October 06, 2026. Findings combine technical, content, schema, performance, visual, and search-readiness evidence as available.

72/100

SEO HEALTH SCORE

Critical Issues Found:

1. Homepage title/H1 never say 'restaurant', 'Vaughan' or 'Italian'; ~4,600 impressions at pos 4.9 convert at 2.8% (rewrite recommended 2026-09-19, not shipped)
2. Fragmented entity: two Google place IDs, two Instagram handles, wrong Apple Maps/Yelp data, 'Penelope Focacceria' alias
3. No page or positioning owns 'Italian restaurant Vaughan' (982 impr, pos 19.6)
4. /catering-events thin (~190 words); Christmas packages only in a popup during booking season
5. No security headers and no long-lived caching for hashed assets

Quick Wins:

1. Rewrite homepage title/meta/H1 (web/src/data/seo.ts:10)
2. Unmark popup_view, popup_dismiss, nav_menu_click, faq_open, announcement_dismiss as GA4 key events (~80% of organic 'conversions')
3. Fix sameAs Instagram handle and strip tracking params (web/src/data/site.ts:44-45)
4. aria-labels on the catering form select/textarea
5. Add web/public/_headers for security headers + immutable /_astro caching

2. Audit Categories

2.1 Technical SEO

Score: 78/100

What Works

- All 20 sitemap URLs 200, self-canonical, indexable
- Single-hop 301s for http/www/legacy URLs
- Real 404 with noindex
- SSR HTML, brotli
- Sitemap resubmitted 09-30, 0 errors

Findings

No security headers High

No HSTS, X-Content-Type-Options, Referrer-Policy, Permissions-Policy, X-Frame-Options/CSP; web/public has no _headers file.

Recommendation: Add web/public/_headers; CSP report-only first.

Hashed assets not cached High

/_astro/* and /fonts/* served max-age=0, must-revalidate.

Recommendation: _headers: /_astro/* max-age=31536000, immutable; /fonts/* 30 days.

No sitemap lastmod Medium

sitemap-0.xml has no <lastmod>.

Recommendation: @astrojs/sitemap serialize in astro.config.mjs:19-27 from Sanity _updatedAt.

/locations/scarborough not indexed Medium

GSC: Discovered - currently not indexed, never crawled, yet in sitemap.

Recommendation: noindex + remove from sitemap; keep as sister card linking to penelopebakehouse.com.

Trailing-slash 307 Medium

/about/ -> 307 -> /about (temporary).

Recommendation: Cloudflare redirect rule 301/308.

http://www two hops Low

http://www -> https://www -> apex.

Recommendation: Single rule to https apex.

Turnstile on every page Low

BaseLayout.astro:77-81 loads it sitewide.

Recommendation: Load only where forms render.

GA4 key events inflated by engagement events High

popup_view, popup_dismiss, nav_menu_click, faq_open, announcement_dismiss marked as key events: 3,856 of 4,786 organic key events.

Recommendation: Unmark them in GA4 Admin > Events; keep reservation/order/catering/call/directions/lead/gift/merch.

2.2 Content Quality

Score: 70/100

What Works

- Four Vaughan landing pages are substantive (535-660 unique words, prices, FAQs) and do not cannibalize
- Low templated ratio
- Consistent founder story
- Good readability (Flesch 52-80)

Findings

No brunch or happy-hour content High

Both words appear 0 times; brunch 704 impr @ 9.6; 'penelope social happy hour' ~25% CTR.

Recommendation: Client decision; build pages if offers exist, else honest FAQ/sections.

/catering-events thin High

~190 words main copy; no capacity, packages, pricing, photos; Christmas packages only in popup; 24h vs 72h notice conflict.

Recommendation: Expand with capacity, per-person table, December packages, photos, consistent notice.

Bakehouse anchors point internally Medium

Home/cafe/pizza/about link 'Bakehouse' to /locations/scarborough; its FAQs speak as the Bakehouse.

Recommendation: Point to penelopebakehouse.com; rewrite FAQs.

Repeated starter story Medium

Near-verbatim on three landing pages and twice on /about.

Recommendation: Replace with page-specific first-hand detail and review quotes.

Weak authority signals Medium

No press, no quoted reviews, no opening year.

Recommendation: Review strip, press links, 'open since'.

2.3 On-Page SEO

Score: 63/100

What Works

- Unique titles and metas on every page
- One H1 per page
- Descriptive URLs

Findings

Homepage title/H1 mis-targeted High

'Penelope Social | Cafe and bar in Woodbridge'; 'restaurant' 0 times on page; restaurants-in-Vaughan CTR 2.8% at pos 4.9.

Recommendation: Title 'Penelope Social | Italian Restaurant & Bar in Vaughan'; H1 'Italian restaurant, cafe and bar in Woodbridge, Vaughan'.

/catering-events title High

Low CTR on catering intent.

Recommendation: 'Catering & Private Events in Vaughan | Penelope Social'.

Duplicate merch H1s Medium

Hoodie, t-shirt, tote all H1 'Merch'; titles 23-26 chars.

Recommendation: H1 = product name.

Long titles/metas Medium

Lunch 71, dinner 67, catering menu 62 chars; tote meta 305, catering menu meta 201.

Recommendation: Trim to 60/155.

No <main> landmark Medium

16 of 20 pages lack <main>; no header/footer elements.

Recommendation: Wrap page-builder output in <main>.

Thin location pages Medium

/locations ~50-63 words; /locations/woodbridge ~155-211.

Recommendation: Add parking, transit, map, photo.

2.4 Schema / Structured Data

Score: 72/100

What Works

- Valid single @graph per page
- Bakehouse modelled as separate entity
- Hours match visible
- Numeric CAD Menu offers
- No self-serving aggregateRating

Findings

No Product schema on merch Medium

merchandise/[slug].astro:39 emits only Restaurant + BreadcrumbList.

Recommendation: Product/Offer, CAD, InStoreOnly.

Dangling supplier @id Medium

supplier -> penelopebakehouse.com/#bakery not defined on merch pages (schema.ts:90).

Recommendation: Always include bakehouseSchema() or drop supplier.

Favicon as image; no WebSite node Medium

image = favicon-192.png (schema.ts:81).

Recommendation: Real photos + logo; WebSite node on /.

sameAs thin and inconsistent Low

Instagram handle differs from site links; tracking params; no GBP/Yelp.

Recommendation: Fix handle, add profiles.

2.5 Performance (CWV)

Score: 82/100

What Works

- Field CWV all good: LCP 485ms, INP 62ms, CLS 0, TTFB 134ms
- CLS 0 in lab too
- AVIF/WebP via Sanity
- GA4 deferred

Findings

Turnstile sitewide High

~600-700KB challenge payload on homepage; likely driver of 10s mobile lab LCP (hypothesis).

Recommendation: Lazy explicit render only on form pages.

Uncapped hero/banner images Medium

/pizza-vaughan banner 575KB from 3840px source.

Recommendation: imageSrcset with width cap.

OTF fonts Medium

~145KB for 2 faces.

Recommendation: Subset woff2.

Render-blocking CSS Medium

4 stylesheets; Swiper CSS everywhere.

Recommendation: Inline critical; per-page Swiper.

/menus/lunch TBT 490ms Medium

GSAP/timeline/GTM long tasks.

Recommendation: Load on demand.

2.6 AI Search Readiness

Score: 72/100

What Works

- SSR pages
- Search/retrieval bots allowed (OAI-SearchBot, PerplexityBot, Claude-SearchBot, Googlebot)
- Quotable FAQ answers with prices
- Clean homepage accessibility tree

Findings

Not cited for Italian/brunch prompts High

Absent from top 20 (Brave) for 'best Italian restaurant Vaughan', 'brunch Vaughan'.

Recommendation: Definition passage + Italian FAQ.

AI training bots blocked vs robots.txt Allow Medium

GPTBot, ClaudeBot, CCBot 403; also explains absence from Common Crawl.

Recommendation: Decide policy in Cloudflare AI Crawl Control and make robots.txt match.

llms.txt fails Lighthouse; internal notes Medium

Plain 'Label: URL' lines, no summary, ops notes, missing landing pages.

Recommendation: Rewrite as Markdown links.

Catering form unlabeled Medium

Agentic Browsing 1/3 on /catering-events (home 2/3).

Recommendation: aria-label/label on select and textarea.

2.7 Images

Score: 80/100

What Works

- All images have alt; empty alts are legitimately decorative
- AVIF/WebP negotiation
- Meaningful images have descriptive alt

Findings

Hero without srcset Medium

1920px image to 390px phones (67KB vs 28KB at 800px).

Recommendation: srcset/sizes.

Below-fold images eager Low

'Event at Penelope', 'Loaves of Sourdough Bread' loading=eager.

Recommendation: loading=lazy.

Missing dimensions Low

5-7 images per page (footer logo, icons).

Recommendation: Set width/height.

2.8 Local SEO (supporting)

Score: 65/100

What Works

- Identical NAP across pages, schema and Bakehouse site
- Hours match schema
- Deliberate Woodbridge/Vaughan split

Findings

Two Google place IDs High

Directions link 0x...:0xd9f3c33a869788c9 vs reviews 0x...:0x3e54ffff5191a9bd.

Recommendation: Confirm canonical GBP; merge/report duplicate.

Apple Maps wrong High

Unit 12-125, Sun-Tue closed, 10am open, 'Pizza Restaurant'.

Recommendation: Apple Business Connect.

Yelp stale High

Daytime-only hours; 14 reviews.

Recommendation: Claim and fix.

No Italian GBP category Medium

Categories lack Italian restaurant; 'enigma' description.

Recommendation: Add category; rewrite description.

---

3. Action Plan

Phase 1: Critical Fixes Week 1

- Homepage title/meta/H1 rewrite
- Resolve duplicate Google place ID
- Unify Instagram handle in sameAs
- Add _headers (security + caching)
- Unmark noise GA4 key events
- GBP Italian category + description
- Fix Apple Maps and Yelp

Phase 2: High-Impact Improvements Weeks 2-3

- Expand /catering-events with Christmas packages
- Lazy Turnstile
- Hero srcset + lazy images
- woff2 fonts
- Rewrite llms.txt
- Catering form labels
- noindex /locations/scarborough; external Bakehouse anchors

Phase 3: Content & Authority Month 2

- Brunch / happy hour decision and pages
- Review strip and press
- Location page depth
- Schema: Product, WebSite, image, priceRange
- AI crawler policy
- Local citations and PR

Phase 4: Monitoring & Iteration Ongoing

- Re-measure ~2026-10-27
- Track /bakery-vaughan Bakehouse-brand leakage

- Landing-page non-brand rankings
- GA4 key events
- Add Bing WMT / Moz for backlinks

Data Sources & Methodology

Source	Description	Update Frequency
PageSpeed Insights API	Lighthouse lab audit (mobile emulation, Moto G Power, slow 4G)	Real-time
Chrome UX Report (CrUX)	28-day rolling field data from real Chrome users	Daily ~04:00 UTC
CrUX History API	25-week p75 trend data per metric	Weekly
Google Search Console	Search Analytics (clicks, impressions, CTR, position)	2-3 day lag
URL Inspection API	Per-URL index status, coverage state, crawl info	Real-time (2,000/day)
